To Whom It May Concern

Subject : Recommendation Letter

This recommendation letter is provided to the company SAFENESS SARL for their outstanding services in providing skilled manpower for our current drilling operation.

Following successful tender, SAFENESS was awarded two contracts. One for the provision of a Drilling Engineer since October 2022 and the second contract for the provision of a Civil Works Supervisor since March 2023. Both consultants have been and still are providing excellent services that have positively impacted the safety and performance of our current drilling campaign.

For the above and many more aspects, I would not hesitate to recommend SAFENESS for any future projects and I fully trust their expertise in selecting the right profiles for Oil & Gas projects.

Sincerely,

A handwritten signature in blue ink, appearing to read "Afif Ben Haj Ali", is written over a horizontal line.

Afif Ben Haj Ali
Drilling Superintendent
